

REMARKS

Entry and consideration of this Preliminary Amendment are respectfully requested prior to or concurrent with calculation of the filing fees.

This Preliminary Amendment was filed to amend claims 3, 4, 6-8, 12-16, and 18-21 to correct improper multiple dependencies therein. Claim 21 was also amended so that it no longer recites "A use...". In addition, new method claims 22-27 are added and are fully supported by the original specification and claims (e.g., they share some similarities with original claims 35-40 removed during the IPER process). No new matter is introduced as a result of this Preliminary Amendment.

Examination on the merits is awaited.

Respectfully submitted,

SMITH, GAMBRELL & RUSSELL, LLP
